Regi estate for Sait.

ANYBODY WHO WOULD LIKE TO own a pretty little village can get one cheap for cash. This place during five and forty years has had the benefit of preliminary work, on which more than half a million dollars have been expended in wages alone. The early difficulties of this enterprise seem to have been due larg have been expended in wages alone. The early difficulties of this enterprise seem to have been due to certain daring industrial innovations and a lot of "oppressive foreign doinga." There was bitter hostility to independent road-building. Machinery was obtained and highways attempted in four directions, but all were barred. Plans of drainage methe same fate. Private lakes and fish ponds were taken for public use, and a handsome deer park was dismantled. But the remedy is easy. The purchaser should curl up and go to sleep. His mere neglect will disarm suspicion and hostility. Then the natives themselves will get to work, and their efforts and the trend of the times will do the developing. The place is still very much of a wilderness, yet it already enjoys nearly every public convenience appertaing to an opulent city. No traffic with agents. Apply by letter only.
